

Activity – 1

- Design a web page for your School(CBSE/HSC/Junior college)/Company using HTML5+ CSS3 (sample layout given below)

Tags :

- a. Home – about school - Image Map for school/comapny map
- b. Group/Courses offered along with department name – Drop Down List – Use CSS selectors/combinators
- c. Department/cultural Activities
 - i. Upcoming events
 - ii. About clubs – embed related emojis
 - iii. Student achievements (embed paper cuttings img/Video/Audio) – HTML5 tags
- d. Your faculty details in table format
- e. Competitive exam score/ Company accredited certificate – company details and previous year records(for ratings use input tags)
- f. COE/Feedback form
 - i. Exam time table/project – Use table, rowspan/colspan
 - ii. Result/feedback – use HTML5 form – Fields are name, password, DOB, email-id, Phone no and comment inputs(types/tags/pattern)

Sample layout
